

Dear Dawn - Principal of MRC (Downtown East),

"I was captivated by the innovative methodology adopted in MAM that I took no hesitation to sign Ashley up straight away. After 7 months, I am pleased that MAM has helped Ashley progress from barely knowing beyond "10" to being competent in calculating mathematics questions beyond "100s" all by herself. Her new found confidence boosts not only the application of mathematics in her daily life, but aids her mental development in logical thinking and music appreciation. Thank you MRC."

Regards
Joann
